

UNSW Business School

Bachelor of Economics

Discover big ideas and analytical tools that can change the world. Develop critical thinking skills and learn how business and policy can benefit society.

Key features

Learn how to change the world

You'll explore and find solutions to the important issues of our time. Economics uncovers the forces behind big issues like global inequality.

Become highly sought after by industry and government

UNSW Economics graduates are keenly sought after by policymakers at all levels of government, private sector employers, not-for-profits, and international organisations.

Build your expertise

Our flexible program allows you to shape your degree around your interests and goals. Choose from three specialisations in economics, build your own program, or complement your economics studies with other Business and Commerce courses. You can also study this program as a double degree to combine your expertise.

Put theory into practice

You'll apply your academic learning through practical experience, empowering you to use economics to change the world. Opportunities for practical experience include internships, group consulting projects, and global practicums.
