

# Faculty of Medicine & Health Research Support

## Pre-Award Support

## Post-Award Support

Faculty of Medicine & Health

[Research Support Team](#)

Grant opportunities database  
Seed grant initiatives  
Researcher profile support

UNSW pricing tool and budget preparation support

Peer-review schemes  
Major NHMRC grant peer review scheme

Escalation of post-award issues

[Contact team](#)

[Medicine & Health Research Infrastructure & Operations Services \(MEDRIOS\)](#)

Determine availability of equipment and storage, lab access, personnel requirements

Costing of new equipment, consumables, chemicals or sample stages. Costing of MEDRIOS support

Use CRU's training and development opportunities to improve study implementation and impact.

Purchase of new equipment & consumables, allocation of space for staff, storage of biospecimens. Safety documentation/protocols. licensing requirements

[Contact team](#)

[Clinical Research Unit \(CRU\)](#)

Engage with the CRU for concept and study planning support for investigator-initiated clinical research.

Comprehensive review of study proposals to enhance project design, quality, and feasibility, maximising the chance of funding success.

An academic partnership tailored to the specific needs of a study and aligned with UNSW policies.

Near misses – request feedback, re-build project concept.

[Contact team](#)

[Philanthropy Development](#)

The Development team facilitates meaningful and transformative philanthropy, and collaborates with researchers to maximise their gift opportunities.

[Contact team](#)

Division of Research and Enterprise

[Research Grants & Contracts \(RGC\)](#)

Eligibility advice  
Communication & resources (support webpages)

Compliance review to ensure application complies with sponsor rules. Complies with UNSW policies including HoS approvals

Submission of grant applications to sponsor

Agreement negotiation & execution, budget release, variations & reporting

Project closure

[Contact team](#)

[Successful Grants Library](#)

[Seminars & Workshops](#)

[Research Strategy Office \(RSO\)](#)

What grant should I apply for? Competitiveness and readiness considerations

Support and assistance in developing competitive funding applications

Strategic Review of applications

Letters of Support for non-UNSW led applications

[Contact team](#)

[Seminars & Workshops & 1:1 meetings](#)

[Research Ethics & Compliance \(RECS\)](#)

Advise on ethics and compliance, facility certifications and clinical trials governance

Preview ethics and compliance applications prior to submission

Manage ethics and compliance submissions to committees/external regulators

Manage project and certification modifications, adverse events

Review final reports and reporting to external regulators

[Contact team](#)

[Research Infrastructure](#)

Research Technology Services (ResTech): Advice data storage & processing requirements

> Estimate costs of storage data & processing

Mark Wainwright Analytical Centre (MWAC): Advice on major instrument facilities

> Budgeting for instruments costs

Stats Central: Training seminars, short courses, study design & analysis advice

> NHMRC grant collaboration letters

Ramaciotti Centre for Genomics: Genomic sequencing project budgeting & planning

> Draft application review, advice on writing details in applications

[Contact ResTech](#)  
[Contact MWAC](#)  
[Contact StatsCentral](#)  
[Contact Ramaciotti](#)

[Industry & Innovation \(I&I\)](#)

Partner advice/ identification/ engagement IP, commercial considerations, strategic grants, tenders & panel selection

Scheme specific commercial/ business case advice  
ARC ITRP/CoE

Partner management/ engagement IP, commercial negotiations, MOU/NDA

[Contact team](#)

[Unisearch](#)

Project management support and advice on consulting for industry partners, panel tenders or becoming an expert witness.

[Contact team](#)

[Research Training](#)

Research Training provides essential training and development programs. Facilitate training resources, modules, & activities.

[Contact team](#)

FIN OPS

[Finance Research and Revenue Accounting \(Research Finance\)](#)

Financial management of research funding commitments from beginning to end.

[Contact team](#)

DVCA

[UNSW Library](#)

Consultations, workshops, research (database search strategies) & publication strategy support

Research impact metrics consultations & group workshops  
Data management planning

Export publication lists from ROS  
ROS-ORCID read-write (sync) functionality for up-to-date publication list

Read & publish agreements and copyright/licensing advice for Open access publishing  
DOI minting

Open access policy compliance via UNSWorks deposit  
Managing publication metadata in ROS
